General Report Comments: At the property, a young guy named Caleb opened the gate for me when hooted at the gate. I spoke to him about claims of a dog being chained to a tree and I asked to see the dog. He took me in to the property and we found their on a static chain onto a tree. I asked them the reason for this and they claimed that the dog is naughty and troubles the tenants. I informed them about legal implications this has on them for treating the dog this manner. I managed to convinced them to sign over the dog to the Sandton SPCA. He said he would like to speak to his parents before and he did to his mother whom said they can let the dog go. I issued them with a written warning for future purposes.
