General Report Comments: At the property, the dog owner spoke with me through the gate and I managed to get her to sign over the dog openly letting her know that the dog will be put down given the dog's age. Her son helped to load the dog in my vehicle after signing the surrender form. I asked to go in as well as there were 2 dogs belonging to another family on the same property. The remaining dog had water and a sheltered sleeping area but I advised them to put a blanket on the floor as well for comfort resting. The dog appeared to be in acceptable physical condition. The reported dog was surrendered to the Sandton SPCA and was later put down. A written warning was issued to them for future purposes.
