| CONFINEMENT OF ANIMALS          | Caged - adequate space      Rescue organization |

General Report Comments: Upon my follow up inspection, Dewald and his colleagues were showing me the around specifically the tortoise in question. The tortoise appeared to have improved and an eye drop was prescribed to owner to use on the tortoise. According to Dewald, they were told it was an eye infection needed eye drops to manage the condition. The Haven was closed due to precautions being taken against a suspected viral outbreak notice issued by the State Vet. I advised her that we can come and assist in case of any emergency or even taking in some of the rabbits to SPCA. Routine inspection to be done regularly.
