General Report Comments: Arrived at the property and I spoke with the owner's sons who said their father was out shopping and is the only one who has the keys for the gate. I told one of the sons to phone their father and the father said he was on his way home from Pick 'n Pay. A few minutes later he arrived and opened for me to let me into the house. They were owning 4 dogs: 3 adults and a puppy. The Pitbull was kept separate from the other dogs in the fear that they may attack each other. I advised him to surrender the dog to Sandton SPCA but they were not willing to do so. I could only convince them to surrender 1 dog. I issued them with a written warning to keep the place clean and hygienic. I still offered to sterilize the remaining dogs and we made arrangements for me to collect them next week. To follow up next week
