General Report Comments: Upon arrival at the property the owner gave us permission and this time we didn't have to get a warrant.

Upon entry we noticed that the place was a lot cleaner and that the refuse bags full of Chinchilla used bedding was discarded.
There was water for every animal. The cages and enclosure were cleaned. The dogs' nails were clipped. There was a lot of improvement. The vet report was not present however they showed me proof of payment to Braynston Veterinary clinic. According to them the vet told them he would only do the vet report once full payment was received and they only paid the account on Sunday. The money would reflect sooner.

We noted some empty cages in the Chinchilla room and according to Ms Kruger she has managed to find homes to some of the Chinchillas. She said she would provide addresses for me. She has said that if she can't find more homes she will surrender more of the chinchillas to the SSPCA.

To follow-up with regards to the veterinary report.

On Monday, 19th December 2022 another follow-up inspection will be conducted with Gauteng Nature Conservation.

Ms. Kruger's daughter is likely to surrender most of the fish. This will be confirm on the 19th December 2022.
