REPORT

Access Granted By: Lucas Shibambo
Comment:
Were Animals Seen on the Property: No

CHECKLISTS

General Report Comments: Upon arrival no animals were found in the area. Lucas told me that they only have a problem with the rats which comes at night looking for food. They do not control the rats. They do not use anything to control the rodents. He also told me that he sometimes see a cat after a long time he thinks it belongs to the houses near because sometimes he sees it once or twice a month. I had to educate them that they are supposed to let us know. They are not allowed use poison, glue traps and buckets with water or ketch all traps. They need to make sure their area is always clean to prevent the rodents.
