NATURE OF COMPLAINT:

I reported a situation a few weeks ago (to Sandton Spca), where a little cat mysteriously fell from a very high balcony and died . But nothing could be proved.

The owner in question has 2 cats.

The other cat is left by the owner for entire weekends (or more), with no fresh food or fresh water.

I climb up on a ladder and put food and water bowls for it. and I pat it, as it's terribly lonely sitting in a dark flat an entire weekend (or more).

With its only friend now dead, it needs its owners companionship and I feel to simply leave it for days alone with no fresh food

DATE CAPTURED: 2023-05-29

CAPTURED USER: CILIA MALAHLELA

I look through the owners window and u can see that no one changes the food for days on end.

I message the owner, but she does not respond, other than to say " I am out".

When I try tell her that there is no fresh food and fresh water for her cat, and that it's cruel to simply leave it in a dark flat for days, she refuses to respond

The owner does not have a vehicle and uses Uber, so when she leaves her flat on a weekend to go partying (or whatever), she obviously feels that it's an effort to come back and feed and look after the cat each day.

If it is neglect , please contact me to discuss.

Thanking you
