Comments:	Upon arrival at the Linksfiel Netcare Hospital, I spoke to the security at the gate who directed me to the Medical Centre parking area. There were 2 other secuirty personnel guarding the entry door. They told me that the so-called suspect just left within 30 minutes of their parking driving a white Toyota Etios with reg. CY 79 HC GP. They referred me to the management for further details. I went there where I found the Patient Liaison Officer, Tracy Thompson. Mrs Thompson stated she was called out when the incident was witnessed by one of their patients. The person in question was apprhended but he was very hostile towards everyone. She stated that the car was parked in the shade with windows slightly open. She also mentioned that they could not see any water and the dogs were panting in transit even though they were able to stick out their snouts. No photos and videos of incidents taken. The suspect could not be found or identified but his vehicle reg. will be recorded for any future allegations against him. Case finalized for now
