General Report Comments: The property is located on a former agricultural holding (AH) and when I arrived at the property Mr. Chauke and Mr. Wilson gave me access to the house. The dogs were both previously adopted from the Sandton SPCA and were found within the their designated property. The dogs appeared to be in acceptable physical condition. The owner is said to be in Congo for work. There are at least 3 staff members who remain on the property when the owner is away. According to the, Mr. Chauke the incident only happened once and it was yesterday due to the gate malfunctioning during load-shedding, and they were able to retrieve the dogs back to the property. I advised them to always mind the dogs wherever there are power-cuts to ensure their safety as well. Food, water and shelter were adequately available. No violation of the Animals Protection Act was found.
