General Report Comments: Upon arrival at the property, Mrs Mokakiso opened the gate for me to conduct a follow up inspection. The chickens were downsized to 10 chicks as the adults and tortoise were to undisclosed place in Vereeniging. She has a mixture of fowl feed that she rotates when feeding the chicks. She keeps the chicks in an empty room used as chicken coop. The room is kept clean but I tell her that she must keep well-ventilated. She bought sticks that she still going to install as perches in the coops. She said she will be working on applying for the permit soon to be able to bring back the tortoise. I will be monitoring her when I'm in the area. Matter concluded for now
