General Report Comments: At the complex there was no intercom placed outside for access. I contacted the complainant who came to me and fill me in even more on the complaint. The complainant resides in a neighbouring complex only complaining about the dog barking and he spoke to them several times. A guy was apprehended going into the complex on foot who luckily was the owner's brother. The gentleman wanted to consult with the owner first and he went on to get consent from the actual owner and I was taken in later on. The unit has a so-called family dog, a tan, 8-month-old, intact male, Jack Russell. The dog appeared to be in acceptable body condition and very alert. They provided a painted, small-sized, wooden kennel with veranda which was adequate and tidy. They own a duplex unit with a garden. The did mention that the dog barks from being incited, intentionally or otherwise. They said someone from their neighbouring complex once flashed a light that caused the dog to bark even more. I later met the owner's spouse Ms Qhelisiwe Hlongwane whom I have educated about the care of a pet dog and to try and keep the dog occupied with some activities and also getting toys for the dogs. I offered to help them with sterilizing the dog and asked them to bring the dog on the 28th of June 2023 as part of our Outreach program and phone me if they won't be able to make it so I can go and fetch the dog. They promised to do so. To check in with them on Wednesday 28/06/2023
