General Report Comments: I went to the property as agreed with the owner on our appointment. I found the owner's son, Caleb who showed me their animals. The own 2 adult dogs, 2 puppies and 2 cats. They all appeared to be in a satisfying physical condition. Accessible water and feeding bowls were placed at different spots of the yard to allow convenient drinking of water by the animals. I asked Mr Nyamekye why the puppies were crying he said they managed to get into the pool area where is the lowest point of the yard and there was a platform that the puppies could not back to the main yard and this caused them to cry for help. He also said they have just adopted from a friend in Doornfontein. Only one male was sterile but I offered sterilizing the rest of the dogs and the owner agreed with me taking them right away. The bitch and 2 puppies were admitted to be sterilized while the pups get their shots. The cats will be done next month. To return the dogs in 2 days.
