General Report Comments: On arrival at the property, I found a gate open but no dog was found running outside. I entered the premises where I found one of the workers, named Steven Nkinika (Malawian national) who said the owner went out a while ago and leaving the gate open because he was allegedly not going take long coming back home. The dog had water and food bowls provided in the sitting room and a couch for sleeping indoors. The dog was in acceptable physical condition. I instructed the caretaker to follow me when exiting the property so he can keep the gate closed to avoid any road safety risks. He obediently did so. No violation of the Animals Protection Act. The complainant was only concerned about his safety and that of his children. Matter finalized
