Were Animals Seen on the Property: No

CHECKLISTS

General Report Comments: I was informed by Mr Mohammed who works at the clinic that the feral cats do not belong to them and some of the clinic patient wanted to feed the cats and they do not allow the feeding of feral cats. Apparently the feral cats comes from other buildings around the clinic come searching for food.
I've explained to Mr Mohammed TNR program and gave him my contact number should the clinic be interested. He showed me where the waste is kept is very secured and the door closes well, feral cats will not have access to the waste. I've explained that waste station usually attract rats and feral cats if not kept secured.
No welfare concern during my inspection.

ACTIONS

NO ACTION REQUIRED

REPORT OUTCOMES

Case finalised - NFA
No welfare concerns found - NFA
