General Report Comments: I was informed by Anebella the rabbits issue has been going on for years and years . She hasn't had proper solution towards them. Members of public dump the rabbits there some are unsterilised which they keep on breeding. She has been trying to work with private people to solve this matter including other welfare organizations but seems like the problem is not being resolved. The are still rabbits. I informed her we need to have a meeting next year and a plan how we going to solve the issue of rabbits. I told her they must continue for now to provide food and water. I'll talk to my supervisor and implement plan of action January.
