General Report Comments: Upon my follow-up inspection, I met guards on duty named, Tankiso Mahlaba and Sibusisiwe Dube working on this day. Most of my requests were complied with during my inspection. The flooring was properly cemented to completely cover the mud build-up in the 1st cage, a new kennel was organized in the 2nd cage, and the gate latch on the 3rd cage was fixed. Fly traps were moved away from the cages to deter flies from the 4th cage. At this time, only 2 dogs were on guard duty during my inspection while the maintenance was still taking place. The dogs were alert and active for duty in appearance. The Imvusa Security company still did not produce any documentation in respect of dogs used for safeguarding. I then phoned the supervisor, Mandla to make it clear to him that their conduct is not acceptable and it must be taken as a matter of urgency. He did say he will be attending to all the concerns as I requested. I instructed for their relief of duty pending the production of the PAPA license by the said company in my written warning within 24 hours. To follow up tomorrow
