General Report Comments: I arrived at the park, the condition was still the same. 4 dogs were found held on-site to perform safeguarding duties without the possession of the PAPA license by Imvusa Security as I instructed. The cages appeared to be cleaned on the floor and fresh potable water was provided. Adequate shelter was also made available in all cages. I phoned the supervisor and told him that my warnings seem to be ignored and this will result in serious legal implications. He told me that he will be phoning the owner of the dogs to remove the dogs off-site. The owner, Annette van Rensburg arranged for someone to collect the dogs right away and I waited for the collector. A few minutes later, the vehicle arrived to fetch the dogs and removed them from the park. All 4 of the dogs were removed. The matter concluded for now
