| CONFINEMENT OF ANIMALS          | Free roaming - in property |

General Report Comments: The complainant was reporting his mother and I said that they must call her to be confronted. The mother, Virginia Sibasa came to speak to me and she said that she came back home and found the dog ruined her new bag of cement. She said she prepared warm water to pour water but was not hot to discipline the dog from the dog's misbehaviour. She said she was very frustrated and did this out of anger. The dog was assessed for wounds but none were found. She said that she only sprinkled a little amount of water and nothing that could be harmful and she feels sorry about it. The dog appeared to be in acceptable physical condition. Water and shelter were adequately available. I tried convincing her to sign over the dog but she asked for the 'benefit of a doubt' and she was willing to get the dog sterilized. I issued a written warning to her to never attempt doing such a act or she will be prosecuted. To follow up with sterilizing the dog on the 15th of February 2023
