General Report Comments: The address provided was that of the complainant. They directed me to the property in question, house no. 1253 1st Street, Far East Bank. I was told that they would be at their relative's at no. 1249 where I found and we went to their house. I found 2 dogs on the property, a X-Mastiff and a X-Pitbull dog. The dogs appeared to be in a fair condition. Water and adequate shelter were provided. The owners admitted to the dog named "Bobo" attacking another neighbour's dog and they said they spoke to about the incident. They said the dog would always go to the victim's property every time "Bobo" gets a chance to sneak out. One side of the yard was partitioned to keep the dogs from the front yard but they had full access of the front when the gate is kept closed. Water containers appeared to be dirty and one of the kennels was broken. The dogs use one large plastic kennel for sleeping together. I issued them with a written warning for the incident, shelter and the dirty containers. I offered to get the dogs sterilized because I told them that the dog attacked because he was establishing dominance in the area and we arranged for them to be done on the 15/02/2023. To follow up on the day.
