General Report Comments: On arrival at the property, I hooted at the gate but only the tenant responded and I asked them to call out the owners for me. The owner opened the gate for me to enter the property. They own 2 dogs and a cat which appeared to be in acceptable physical condition. The dogs were provided with an extra room that was still renovations but there was a rubble of a fallen wall and a broken kennel. Fresh potable water was available shelter was also adequate. A written warning was issued to the owner to clean the shelter off the rubble and waste and keep it in comfortable and a suitable state within 72 hours. I also offered to get the puppy sterilized as well but he wanted to confirm with his father and they will let me know upon my follow up inspection. To follow up in 3 days
