CHECKLISTS

General Report Comments: No one home. I came across an immediate neighbour of the owner of the property in question. He said that the owner was away in Limpopo and only his children are the ones still on the property working through out the day knocking off at 5 pm. He vouched for them that he never saw or heard chickens coming from the property but he did not have their contact details. I also asked young scholar, named Angelo from same street(Westmoreland Road) who owns a Pitbull and was enquiring about vaccinations. He said that he had never seen any chickens from this house but knows of a house nearby which does have chickens. I left another written Warning note on the 2nd entrance (on Greys Lane) of the property as I previously attached my 1 st Warning on the garage entrance that lays on the other street(Westmoreland Road). No chickens were seen or heard on the property. I left a written Warning note for the owner once again to phone me . To visit the property when in the area After-hours
