General Report Comments: On arrival at the house, I found the helper, Elizabeth Pandukai and the owner's father Mike Naidoo who said they were not aware of any such incident as the owners were not around. They own a Staffordshire Terrier which appeared to be in acceptable physical condition, shiny coat. The dog was found indoors and did not appear to have free access to the front yard. The dog is said to live indoors and not allowed to be in the front yard unsupervised according to the helper when I spoke to her through the gate. They claim no one came to report the incident to them quoted as saying maybe they got the wrong address. I left my phone number for the owner to contact me to discuss the matter. To follow up tomorrow with the owner
