General Report Comments: Upon arrival the dog was roaming freely in the property it was not locked inside the house. I asked the owner about locking the dog and she told me that she locks the dog because when she not around some tenants ok leaves the gate open and the dog runs away. When she locks the dog inside she provides it with water. She does lock it for the whole day she looks when she goes to the shop. I had to educate her about sterilising her dog and she agreed. No violation of the animal protection act 71 of 1962 was observed.
