General Report Comments: Upon arrival 2 adult dogs were kept in the front property and the two puppies were kept at the back yard with the poultry. The puppies were not fighting or killing the chickens . The 2 adult dogs kept at front the owner told me that they are the ones which attacks the chickens thats the reason he separated them from the chickens. He told me they have never killed the poultry. He discovered that they are not good with poultry the first day he brought them and he had to separate. No violation of the animal protection act 71 of 1962 was observed.
