CHECKLISTS

General Report Comments: No dogs were found during my inspection at the park. I asked the security guards and according to them, the dogs were removed the same late afternoon I visited the site and they never came for their duties since then. I was told that the owner, Annette van Rensburg said she would organize proper resting places/shelter for the dogs before considering bringing the dogs back. The dogs were given veterinary treatment as compiled in the Veterinary Report. Matter concluded for now
