General Report Comments: On arrival at the property, there was a caretaker named Moses Alfred Mubetey who said he brought the dogs on behalf of the property owner to keep them as an added security measure on the property. There were 4 dogs on the property in a bedroom-sized enclosure with no roof or adequate shelter provided. There was an old khaki metal filing cabinet laid down provided as shelter for all 4 dogs. The place was very filthy and untidy with foreign objects in the enclosure. Leftover food was not being cleaned or removed leaving it to rot. The males were fighting for dominance and mating rights toward the bitch. This resulted in one of the males having an injury on his eye and always finding a place to hide away from the alpha male. The injured one had not treated or taken to a vet according to the owner. He claimed he always cleaning and feeding the dogs but cleaning takes place every 2 or 3 days. I told him that he must clean every day given the number of dogs he has been keeping because there more there are dogs the more they need to maintain the dogs' needs. I told him that the enclosure was also too small for all 4 dogs and needed to make plans other living alternative for at least 2 of the dogs while offering him to surrender the dogs but he refused saying that he will do as I'm advising to. I gave him a written Warning to rectify these issues and told him I will be coming in a few days to check on any improvements. To follow up
