General Report Comments: On the arrival at the property, the owner allowed access to his unit at the main entrance. He met me in the parking lot to find out about my visit and I explained to him reason and he said that he then became offended by these allegations as he had been paying a lot of money towards the care of these cats including the vet care. The cat appeared to have an infected eye and he claimed that he had taken the cat to a vet a while ago. The cats were provided with food, water and a fresh cat litter tray. I issued a written Warning note to seek veterinary or medical treatment urgently within 24 hours and forward me the veterinary report. To follow up regarding treatment of the cat
