General Report Comments: When I arrived at the property, the lady of the house was standing a few metres away from her house at number 44A 7th Avenue, Bezuidenhout Valley for a transport. She said was already going somewhere as I didn't come at the right. I told her that the matter was taken serious and she needed to just show me the cats' living conditions. The lady rushed into only showing me one cat that just gave birth to a litter of 4 kittens which were about 3 days old breastfeeding from their mother. She claimed that she only had one cat that she volunteerily took in as it gave birth in her yard. I told her I was going to issue her with a written Warning because for not providing water and allowing the cat to live off milk because it upsets their stomach . She walked out on while I was writing her the Warning but later the husband came back from fetching his kid from school . He said to me that they were just giving the cats (strays) a home in his yard and buying food for them and said they were 2 cats and their kittens in their house. He said that I'm welcome take the cats as they were becoming too much of a work for them. All 10 cats and kittens were surrendered to the Sandton SPCA and he took our business card to contact us when more cats come back again .
