General Report Comments: Upon arrival the the dog appeared to be in good condition. Water, shelter and food was provided. The wall is well secured. The dog can not jump wall. I spoke to the owner regarding his dog which is always out on the street. He told me that the dog used to get out when they are opening the gate but the past 3 days he is controlling it. I had to educate him regarding the sterilisation and he said he will take it to his vet.
