General Report Comments:

I arrived at the house where I found the owner of the dogs. He owns 2 adults and a puppy. The bitch that was spotted running on the street did appear to be slightly underweight although she was still at nursing stage of the puppy on the property. The dogs were provided with adequate shelter and water but the yard was dirty with poop that is not scooped on the lawn. He said that the gardener comes once a week to clear the yard. I persuaded to surrender the puppy and the bitch to us and offered sterilization of the male remaining on the property. To arrange sterilization for him soon
