General Report Comments: I arrived at the complex where the caretaker, Oupa opened for me. According to him, the sheep was moved off the complex. He accompanied me to the enclosure where the sheep was last kept. There was no sheep in the enclosure during my follow-up inspection. I met Mrs Mohammed later on, the owner's wife who told me that the sheep had been moved away to an undisclosed farm but they did not know the name of the farm in Walkerville where it was later slaughtered. There was one white rabbit doe but the male rabbit escaped through the gate and allegedly got run over by a car when their kids were playing with them. She claimed the kid would normally let them out of the hutch when they are back home. Water and hay were provided. I offered to spay the doe after stating that the rabbit previously had kittens that they gave away but she was not willing to do so but she said she will give it some thought. I told her to give me a call when she decides to spay the rabbit.
