General Report Comments: Mrs Ngwenya opened for me when arrived at the house. She owns 2 dogs that were kept in an enclosure of about 6 m in length and 4 m in width. There were 2 dog kennels provided for each and a cage made out of diamond mesh steel cage. The reason for keeping the dogs enclosed was because they had tenants who own cars being parked in the driveway that the dogs keep damaging. Water was available and the place appeared to clean. She denied the claims of beating up the dogs and said one of the dogs got stuck trying to escape out of the enclosure and kept crying when she was trying to free the dog not releasing she was hurting the dog. The dogs appeared to be friendly towards the owner. I advised her to free the dogs from the enclosure during the the times the tenants are not there during the day
