General Report Comments: I met one of the workers when I arrived at the Medina Court basement, Mr Alfredo Massingue who phoned his boss Mr Caster Mayimela. I spoke to Mr Mayimela and told him that I will be inspecting their facilities and I will be reverting back if they are any concerns. There were 23 chickens (only 2 were cocks) in cages sold and slaughtered upon a request of a customer in the most inhumane way. They claimed these chickens arrived a while ago before my arrival. They appeared to be alert and none of them showed signs of listlessness. Slaughtering of live chickens appeared to still take place even with unsuitable equipment. The night quarters had a gutter used for food was mounted along the wall and I did instruct for water containers to be arranged. I issued a written warning to the worker and owner also advising them to immediately cease operation and highlighting other offenses in respect of animals. To follow up in a week's time.
