Comments:	I found four contractors renovating (plastering) his front wall and met the property owner, who assured me that he had no pets. I insisted on taking a walk in his yard with his consent. He politely allowed me to walk in his yard, and I found no signs of dog/pet activities. However, he did attest to your claims of a dog in the neighbourhood that barks and cries at night but couldn't pinpoint where it might be coming from. I asked that he report such incidents to the Sandton SPCA if he should verify the address. No dog was found at 208 Cumberland Road, South Kensington and we therefore, request that you verify the address and any information(person of interest if known, capture photos/video of the incident if possible) to support your claims and inform us about it
