Follow-Up Date:	2024-02-05
Comments:	We conducted the home inspection where the owner lives in a cottage having his own space in the backyard. The yard is partitioned with 2 gated(1 steel gate and 1 metal door) walls. There was no shelter for the dog during the inspection. Mr Agbarakwe said he would get a kennel for tomorrow . He video-called me when he got a woodworker to build a kennel for him and I advised him to ensure it's placed under a protected area and waterproofed with some paint. Pictures of the finished work were sent to me as well. The dog was booked in for sterilization on the 5th February
