General Report Comments: Upon arrival the dogs where roaming freely inside the property. I had to asked the owner to confine them so that I will have access to go into the property and I will do the inspection. The dogs appeared to be in good condition. I asked them regarding their dog biting a child and they told me it happened by mistake. The dog came out by mistake when her sister who visited was driving out. To prevent this from happening again they put a gate by the alley way so that when driving out they will confine them and after driving out someone will open the alley way gate.
