General Report Comments: Upon arrival the animals were roaming freely around the property which is well fenced and the gate was locked. I spoke to the owner about her dog has bitten someone and she told me she was not at home. Her 2 grandsons opened the gate and the dogs went out and that's when they bite someone who was walking on the street. I asked the owner to surrender the dog to the Sandton SPCA and she denied. I had to educate her to make sure that they keep their dogs at the back property when kids are going out. I also phoned the complainant that he needs to open a CAS with the SAPS and he told me he already did that.
