General Report Comments: Upon arrival the dog was confined in a small space and also chained with a leash which is approximately 1 metre. The place was dirty with rubble, broken bricks, mortar and feaces not picked. The dog also had a growth lump. The owner did not take it to the veterinary for treatment. He had to surrender the dog to the Sandton SPCA and I gave him a warning that in future if he has a dog he needs to take it to the vet for treatment and keep it in a clean environment and needs to roam freely in a well secured property
