General Report Comments: The animals appeared to be in good condition. I spoke to the owner regarding him walking his dogs not on a leash and he told me that during the day he walks his dog on a leash and he only walks it out of a leash at night when people are in their homes. He also told me that he is not the only person person who does that in the complex. I had to educate him that also at night he needs to put his dog on a leash because it might bite a somebody else or other animals who might be passing and he told me that he will do so
