General Report Comments: Upon arrival the dog was roaming around the complex which puts the dog in a risk of being knocked over by the cars or going out of the complex to the street. The owner has well secured property but he leaves his gate open. I spoke to her regarding the dog being thrown into the swimming pool and being abused. She denied doing but the complainant was there and she said she told the mother of the kids. I had to educate the family being a responsible owner. I also gave her a warning.
