General Report Comments: Upon arrival cats were observed in the property. Kayla appeared to be in good condition and Lilly appeared to be very sick, old and not able to move. Lilly was kept outside the property on the communal grounds of the complex under the chair. I spoke with the owner Mr George Genev who told me and my colleague senior inspector Ronald Ramalata that we are not supposed to go near the cat as we will stress the cat. George told us that the cat is suffering from hyperthyroidism gets some treatment treatment from the Fourways Veterinary Hospital. He had to show me his previous vet consultations and I asked him to email report to me.
