General Report Comments: Upon arrival at the property, a lady named Blessing Ncube opened the gate for me after I informed her about the complaint. She said she is Mr Lunga's wife, whose husband owns the dogs but was not home. I found the dogs confined at one corner of the house (approx. 3 x 2 m), and they had the back passage. 2 adults a male and a female with 3 x 3-month-old puppies (sold to CAP Security) were kept in the enclosure. The dogs did not have water, as the bowl was tipped over. There was a large wooden kennel in the same enclosure. The dogs were physically in acceptable body condition. The house is a residence to 2 tenants with both owning dogs. Dogs that are owned by the other tenant were kept in a car garage and he was not home. Mr Lunga came back home later on and spoke to me about why he and his co-tenant's dogs are confined is because they tend to get into fights together. I couldn't see the other tenant's, Mr Roger William's dogs' living condition but I phoned him to inform him about my visit. Mr Lunga said they agreed to get a quotation to partition the yard over the next weekend. I issued both tenants with a written warning for their actions to rectify the situation within 17 days but I'll be checking up on their progress on the 18th of this month.
