General Report Comments: The dog was found in an abandoned on the premises designated for a car wash that we found the gates open. The dog was chained to a post of the car wash port on a static chain with a fabric collar. The water bucket was overturned and spilt on the floor therefore, no accessible water was provided for the dog. We asked around for the owner or caretaker or their contacts to no avail . The dog was then impounded due to these circumstances to prevent further unnecessary suffering and left the owner with a written warning which I gave to one of his homeboys named Ibrahim.
