CHECKLISTS

General Report Comments: The dog was at Sandton SPCA on the time of investigation. The problem is big enough for the dog. The walls are high the dog can not jump. The reason the dog went out of the property is because the kids opened the gate for someone who was visiting and they did not notice that the dog went out. I had to educate the owner that they need to close the gate which separates the back and front when driving in and out.
