General Report Comments: -Only one puppy was found with a kennel and a blanket. The space was big enough for a small breed puppy. It was in good condition.
- 2 kittens were seen they had water and food. They appeared to be in good condition.
- 9 juvenile rabbits were seen inside the shop. They were kept in one cage which has a space which is acceptable. They had food and water. The reason for keeping them inside is because it's warm. The owner does have a hutch outside where he keeps adult rabbits.
- the birds were kept in flocks of the same types. They had water and food provided. The cages were small but they were not over crowded. The small needs to be kept in a flock so that they have companionship. The pet shop has an aviary outside, the owner told me that he is not keeping them there because they were getting sick and he suspected that some bird coming outside they might be bringing the diseases.
