General Report Comments: 2 dogs were found roaming freely inside the property. They were not chained. Water was provided. The dogs sleeps inside the garage which does not have a door. Inside the garage they sleep inside the car with no windows . I checked the car to see if they sleep there and the car seats have some furs. The dog named Brownny had some old scars which healed and the owner told me the dog was attacked by another dog when they were walking it last year. I educated the owner regarding sterilising her dogs and he denied to do it.
