General Report Comments: Upon our arrival we met with Sizwe:- Facility Manager and informed him about the nature of complain. I was informed by Sizwe the are tenants in the building that are feeding the feral cats which we saw the feeding stations with food, clean fresh water and shelter provided during our inspection however Sizwe thought that it will be the best if all the cats to be removed since the building is sold & he personally does not want the resposibilty of having feral cats. We met with some of the tenants, they expressed desires to keep the cats and were opposed to their removal. Some of the tenants requested us to give them time and they willl take the kittens that are friendly. They do not want them to be taken by the SPCA. Facility Manager agreed that they can be taken by them since they have been responsible of taking care of the cats. We will arrange for the remining cats to be trapped on 10th Feb once he has finalized with his supervisor.

ACTIONS
