General Report Comments: Upon arrival 23 horses were seen in the property. 1 horse named Boss appeared to be underweight and limping. Horse named Discreet appeared to be underweight. The manager Gavi Sher told me Boss his weight deteriorated and they have changed his diet. The limping was caused by jumping at the moment they are treating him. He no longer works because he is limping and underweight. They have not taken him to the vet. He told me that Discreet came underweight and he has gained a lot of weight since he came. I had to give the owner a warning for the horses to be examined by the veterinarian. The other horses appeared to be in good condition. The facility appeared to be muddy.
