**CHECKLISTS**

General Report Comments: After inspector Mncube requested me to conduct a follow-up on his behalf, I went to the Nature Reserve to check. One of the security guards(not a DH) at the gate, told me there are no longer dogs on site as they've just started their day shift today. He was not sure the dogs were removed on site. I still insisted on checking their last known holding cages, but no dogs were being used for safeguarding as I previously told them they needed to renew their license before they can continue using their dogs for safeguarding. No guard dogs found.
