General Report Comments: Upon arrival the cats appeared to be in good condition only the mom cat was in a fair condition because she is breastfeeding. The cats had food and water provided. The owner agreed that the male cat yesterday went out and it came late at night because they slept around 11:00 pm and it was not around. They didn't do it intentionally. I educated him regarding sterilising his cats and he said he will take them to the vet.
